AMIDST THE COVID-19 PANDEMIC, and the launching of ***The New Catechetical Directory*** last June 25, 2020, by Archbishop Rino Fisichella, president of the Pontifical Council for the Promotion of the New Evangelization, **The National Catechetical Study 2021: Pastoral Action and Intervention (PARI)** Project becomes more relevant.

The research partnership between the *Catholic Bishops' Conference of the Philippines' (CBCP) Episcopal Commission on Catechesis and Catholic Education (ECCCE)* led by Bp. Roberto C. Mallari, DD, and the *University of Santo Tomas' (UST) Research Center for Social Sciences and Education* embarks into further understanding the state of catechetical ministry (CM) in the Philippines. Building from the *National Catechetical Study 2018*, a research that documents the lives, dispositions, and commitments of 26,978 Filipino catechist respondents from more than 50 Ecclesiastical Territories (ETs), the current project focuses on three additional salient dimensions of CM through the following pastoral research. These are (a) *Studying the Catechized (SC)*; (b) *Studying Catechetical Formation Programs (SCFP)*, and *Studying Catechetical Human Resources (SCHR)*.

Research findings from this study generate pastoral insights that inspire the implementation of *Research-based Intervention Outcomes (RIO)* activities. The main goal engenders more

effective catechesis and catechetical ministry in the Philippine Catholic Church.

Through the generous funding granted by the Porticus Asia, Ltd., the *NCS 2021: PARI Project* started last January 28, 2019, and formally launched on March 18, 2019, with catechetical leaders and catechists at the University of Santo Tomas. The project followed *Activity-Outputs-Outcomes Matrix* (see Appendix A) as a guide in its implementation until halted by the COVID-19 pandemic in the middle of March 2020.

This **project update** provides *summary points* of the significant accomplishments as well as new research plans and intervention strategies in its second year of implementation amidst the challenges of the COVID-19 pandemic. This report highlights five aspects of project implementation namely, (a) research administration and financial state; (b) the *NCS 2018* research presentations; (c) status of the three pastoral action research (SC, SCFP & SCHR); (d) social media presence; and (e) the Research-based Intervention Outcomes (RIO).

A. Research Administration and Financial State

The *NCS 2021: PARI Project* consists of team members from various disciplines (social sciences, linguistics, education, and sacred sciences). The principal investigator is Clarence M. Batan, PhD, a sociologist. Research Associates are Ma. Cecilia L. Balajadia, MA (Theology and Religious Education); Heiden C. Anorico, MA (Educational Management), and Florence C. Navidad, EdD (Doctor of Education), MSMT, MT, RN.

The project also consists of Project Assistants (PA) for Administration and Finance and Research and Documentation (see Appendix B). For the second year of project implementation, given the COVID-19 pandemic, there are some changes in our research team. Project assistants remain, but UST research associates were reduced to only one (1) faculty with a possibility of

welcoming new volunteers to serve as “interventionists” for the RIO activities.

On the financial state of the grant, the project managed the resources through the creation of customized *budget guidelines and templates* to follow a workflow chart, approved line-item budget, and record transactions using a working Excel Worksheet in generating financial statements. After the assessment of the Annual Grant Report of this project, amidst the pandemic, last April 13, 2020, Porticus Asia, Ltd. released the second tranche amounting to € 90,484.90, which is equal to more than five million pesos. As of December 31, 2020, the project liquidated a total amount of Php 5,429,164.09 which is currently under audit examination by the UST Finance Department. (Details of Project Expenses is available upon request.)

B. The NCS 2018 Research Presentations

In the spirit of sharing the NCS 2018 research findings and NCS 2021 preliminary observations to catechist respondents and religious organizations, through the support of CBCP bishops, as of December 2020, the research team has reached a total of 49,255 participants in various gatherings like forum, seminars, webinars, symposia, and conferences attended by catechists, catechetical leaders, clergy, and lay. Combined with data-gathering orientations of the current project dubbed as *Katekistang Kalakbay sa Pananaliksik*, NCS 2018 findings and insights were presented to a total of 75 out of 86, or 87 % of Ecclesiastical Territories in the last three years from 2017–2020 (see Appendix C).

C. Status of Three Pastoral Action Researches

As of November 2020, the *NCS 2021: PARI Project* conducted a total of one hundred seven (107) workshops and meetings on conceptualization, tool development, and research management (see Appendix D.1, D.2). These workshops interrogated core research concepts such as “catechized,” “formation programs,” and “catechetical human resources.” Also, these activities completed the processes of designing, developing, constructing, pilot testing, and content validation of research tools such as survey questionnaire (SQ), interview guide (IG), and visual creative tool (VCT). Participatory, dialogic, and inclusive approaches guided the construction of these research tools, ensuring the multifaceted voices of those involved in catechetical ministry.

1. Studying the Catechized (SC)

The COVID-19 pandemic disrupted the conduct of data gathering for some Ecclesiastical Territories (ETs). None the less, the project completed several research outputs on data analysis, such as codebooks and conceptual codes.

As of January 31, 2021, 6,581 out of the expected 7,600 catechized respondents or 86.6% of the expected total survey data were encoded online by KKP volunteers

over KoBo Toolbox survey software (see Appendix E.1). Also, a total of 174 out of 344 interviewees or 51% of expected interview respondents were encoded using KoBo Toolbox.

The field visits conducted in almost all EPs allowed research conversations with select catechists and catechetical directors as well as research orientations for *Katekistang Kalakbay sa Pananaliksik* (KKP). Based on the research decision, the remaining 10 ETs out of the 86 ETs in the country will not be included in the study. Appendix E.2 summarizes the study's new status in terms of the number of orientations conducted, sampling of center and periphery parishes, distribution of tools and phones, and data gathered.

2. Studying Catechetical Formation Programs (SCFP)

This pastoral action research conducted a total of Thirty-Five (35) interviews in the ETs of Manila, Military Ordinariate, Cebu, Ozamis, Palo, San Fernando, Jaro, Tuguegarao, and Zamboanga. Initial interview transcripts were subjected to analysis using a qualitative data analysis software called MaxQDA V. 2020. Meanwhile, catechetical materials were collected and archived from the selected ETs for the document analysis (see Appendix F). In addition, *Formation Tracer Study* survey has also been conducted via Google Forms. It has a total of 1,618 respondents as of December 2020. The data is being prepared for numerization and data analysis.

3. Studying Catechetical Human Resources (SCHR)

For this project, the small sample size projected was at least three key respondents per EP with a minimum of 17 (20% of total ETs) to a maximum of 54 (65% of total ETs). To date, this project conducted a total of 27 (twenty-seven) key informant interviews from October 2019 to February 2020. Appendix H shows the distribution of interview respondents by EP. Along with SCFP, this project also collects archival documents

particularly focusing on norms and policies; vision and mission; and organization and history for its analysis.

D. Social Media Presence

The *NCS 2021: PARI Project* maintains its [project website](http://www.ncs2021pariproject.com) at www.ncs2021pariproject.com and [Facebook Page](#) named **NCS 2021 PARI PROJECT** as well as releases occasional [MailChimp-based E-news](#). E. The Research-Based Intervention Outcomes (RIO)

The second main objective of the *NCS 2021: PARI Project* focuses on the implementation of Research-Based Intervention Outcomes (RIO). Utilizing the research findings from both the *NCS 2016-2018* and the preliminary results from the current *NCS 2021: PARI Project*, RIO was launched last January 30, 2020.

Taking into serious consideration shift of online-based work arrangements due to COVID-19 pandemic, RIO focuses on four approaches namely (a) technology-sharing presentations, (b) formation, (c) publication, and (d) human resources. Here are examples of working RIO activities. Here are examples of RIO activities. As of January 2021, the *NCS 2021: PARI Project* implements ten (10) RIO activities and another seven (7) future RIO activities (See Table 1).

Sample Current RIO Activities

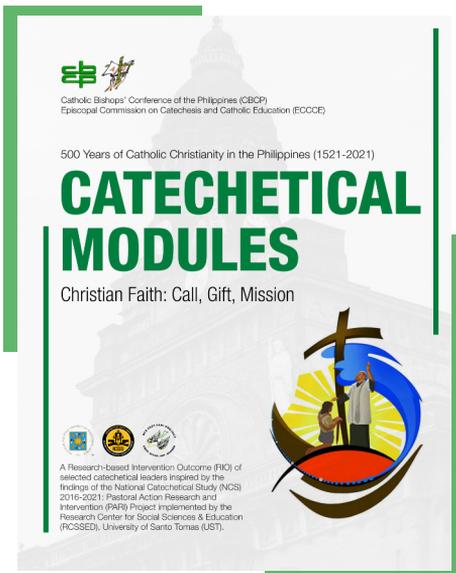

Katekista Tulang Pananaliksik (KTP)

The e-version of the first *RIO* entitled, *Katekista: Mga Tulang Pananaliksik*, was launched online thru the NCS 2021 website during the Easter Sunday celebration last April 21, 2020. This material is available in 11 languages – Filipino (original); Bikol; Bisaya, Hiligaynon, Ibanag, Ilocano, Kapampangan, Pangasinan, Waray, English, and Español.

Online copies are available in this link:

Catechetical Modules (CM)

Catechetical Modules based on the themes of the nine-year preparation for the 500th year celebration of the Catholic Church, is now being finalized. The general module uses the *CBCP Pastoral Exhortations and Statements* as a guide with specific teaching and learning intended goals set for meaningful and creative catechesis. Significant parts of the module include the following: (a) biblical and catechetical resources; (b) human values and spirituality; (c) catechists' reflection corner; and (d) formative learning modes (such as prayers, songs, and poems).

The NCS 2021: PARI Project Research Team in partnership with the interventionists from CBCP-ECCCE headed by Fr. Richard P. Lagos, conducts online Zoom Meetings for the follow-up and updating of this RIO activity.

NCS 2018 Katekista Findings and Insights (KFI)

RIO 3 *Katekista: Findings & Insights from the National Catechetical Study 2016-2021*, is a two-part research monograph that details the research findings and pastoral insights of the five-year long project on Filipino catechist respondents and selected catechetical leaders (NCS 2016-2018); and the pastoral action researches on the catechized, catechetical formation programs, and catechetical human resources (NCS 2021: PARI Project). This includes infographics and reports on selected Ecclesiastical Territories (ET).

Catechetical Research and Documentation (CRD)

This RIO focuses on providing assistance in doing research and documentation in various ETs. This includes the *Santo Domingo 2020 Study*, *CBCP Quinquennial Report*, Batanes, Basilan, and the on-going data gathering of Diocese of Laoag and Diocese of Kalookan. As its main output, this RIO aims to conduct the National Research Conference on Catechetical Ministry (NRCCM) to provide a venue in discussing relevant research findings, methodologies, and frameworks in studying CM in the Philippines.

- Catechetical Songs
- Mindanao Catechesis

The Catechetical Pandemic Challenge

The *NCS 2021: PARI Project* faces the catechetical pandemic challenge with utmost resolve. The implementing activities will continue to focus on assisting Filipino catechists and catechetical leaders in doing effective catechesis amidst the COVID-19 pandemic. That is, while this health crisis impacted lives across the world, the mission of catechesis remains salient in the lives of Catholics in the Philippines and around the globe.
